

*STARFLEET INTERNATIONAL*

*RECYCLING FUNDRAISER PROGRAM*

Everyone's hearing about the bad economy these days and lots of people think "well, there's nothing I can do to help" but there is! And it won't cost you 700 billion dollars, in fact, it won't cost you anything!

Many of you have heard about the Ink Jet Recycling Program over the years, many of you have not. The company that STARFLEET has chosen to interact with is Global Re-Source Funding, formerly Re-Think Ink! This company provides prepaid envelopes for lots of 25 cartridges. So that means we need to pool together our cartridges by turning them over at public functions such as chapter meetings, regional events, or even the IC.

The cartridges that the company accepts are generally the type that have the little data ribbons on them, but that's not all they take. Along with cell phones and assorted batteries, they have been accepting more and more things everyday... they have recently expanded their collection list to include your old iPod or even your laptop!

At this time, Global does not provide prepaid postage for Canadian orders, so any one in Region 10,13.and 14. Don't think you're left out! Get them across the border by dropping them off when you visit and especially at the IC being held in North Carolina.

You can even send them direct from your location with their online mailing label you can print yourself. If you have any questions, I can help you determine the packages you need and guide you through box label printing process, please contact me at [irontrak@aol.com](mailto:irontrak@aol.com)

We can help STARFLEET with this simple program at no cost to us.

Thank you,

Capt Joe Horton

STARFLEET Fundraiser Officer

## Raise Funds Using America's Most Rewarding Recycling Program

**Welcome to Global Re-Source Funding (formerly Rethink, Ink)!** In one easy program your school, church, business, store or organization can become involved in helping our environment, saving natural resources and earning much needed funding to support its activities.

- **NOW ACCEPTING IPODS AND LAPTOPS!!**
- Earn cash to fund your programs- 100% cash profits
- Ideal for schools, stores, churches, PTAs, non-profits, youth groups and businesses
- No cost to participate
- Easy to run
- We supply everything you need
- Fantastic for educational and environmental objectives or making extra profits for your business

Global Re-Source Funding (formerly Rethink, Ink) will pay you the most competitive prices in the recyclables industry -

- Up to \$35 for cell phone and iPod MP3 recycling
- Up to \$7 for toner/laser cartridges
- Up to \$3 for inkjet cartridges
- Up to \$35 for laptops
- We accept over 850 qualifying items

- while teaching participants the importance of environmental responsibility. Plus, it will raise your organization's visibility in the community.

**There is no financial obligation to participate**, and we offer a multitude of incentives to motivate participants to collect the highest amount of inkjets, toner/laser cartridges, iPods, laptops and cell phones they can. The more items you can collect, the more money you can raise for your programs. Please tour our web site to find out how you can raise the money you need and do some good for our environment.
